Brockley Library of Things (LoT)

Library of Things is planning to open a Library in the Brockley area, where you can come and borrow all sorts of things for your home, projects and adventures: think power tools, camping equipment, one-off kitchen gadgets, tech kit and garden tools. Stuff that is too big to store, is expensive, or that you only need occasionally. It is a simple process where you reserve a 'thing' online, then you come and collect and borrow that item for a day for a small fee. It saves you money and it is also better for the environment as all the things are used multiple times. We aim to create a space alongside the library that is home for practical fix-it workshops, mending mentoring and a whole host of other community conversations. LoT is a non-profit community organisation and that is why we would love to have your input before we set up to ensure we are serving the needs of the community. There are 10 simple questions to answer and it should only take a few minutes. Thanks so much for giving us your input.
